3. Click **Set up or change your Internet connection** task.

4. Depending on the screen that appears next click **Create a new connection** task.

OR

Click **Setup**

5. Click **Next**

6. Select **Connect to the Internet**. Click **Next**.

New Connection Wizard

Network Connection Type
What do you want to do?

- Connect to the Internet**
Connect to the Internet so you can browse the Web and read email.
- Connect to the network at my workplace**
Connect to a business network (using dial-up or VPN) so you can work from home, a field office, or another location.
- Set up an advanced connection**
Connect directly to another computer using your serial, parallel, or infrared port, or set up this computer so that other computers can connect to it.

7. Select **Set up my connection manually**. Click **Next**.

New Connection Wizard

Getting Ready
The wizard is preparing to set up your Internet connection.

How do you want to connect to the Internet?

- Choose from a list of Internet service providers (ISPs)**
- Set up my connection manually**
For a dial-up connection, you will need your account name, password, and a phone number for your ISP. For a broadband account, you won't need a phone number.
- Use the CD I got from an ISP**

8. Select **Connect using a dial-up modem**. Click **Next**.

New Connection Wizard

Internet Connection
How do you want to connect to the Internet?

- Connect using a dial-up modem**
This type of connection uses a modem and a regular or ISDN phone line.
- Connect using a broadband connection that requires a user name and password**
This is a high-speed connection using either a DSL or cable modem. Your ISP may refer to this type of connection as PPPoE.
- Connect using a broadband connection that is always on**
This is a high-speed connection using either a cable modem, DSL or LAN connection. It is always active, and doesn't require you to sign in.

9. In the **ISP Name** field type **FKBNet**. Click **Next**.

New Connection Wizard

Connection Name
What is the name of the service that provides your Internet connection?

Type the name of your ISP in the following box.

ISP Name

FKBNet

The name you type here will be the name of the connection you are creating.

< Back Next > Cancel

10. In the **Phone number** field type **295-0099**. Click **Next**.

New Connection Wizard

Phone Number to Dial
What is your ISP's phone number?

Type the phone number below.

Phone number:

You might need to include a "1" or the area code, or both. If you are not sure you need the extra numbers, dial the phone number on your telephone. If you hear a modem sound, the number dialed is correct.

11. Select **Anyone's use**. Click **Next**.

New Connection Wizard

Connection Availability
You can make the new connection available to any user or only to yourself.

A connection that is created for your use only is saved in your user account and is not available unless you are logged on.

Create this connection for:

Anyone's use
 My use only

12. Type in your information for **User name**, **Password** and **Confirm password**.
Click **Next**.

New Connection Wizard

Internet Account Information
You will need an account name and password to sign in to your Internet account.

Type an ISP account name and password, then write down this information and store it in a safe place. (If you have forgotten an existing account name or password, contact your ISP.)

User name:

Password:

Confirm password:

Use this account name and password when anyone connects to the Internet from this computer

Make this the default Internet connection

Turn on Internet Connection Firewall for this connection

< Back Next > Cancel

13. Click **Finish**.

New Connection Wizard

Completing the New Connection Wizard

You have successfully completed the steps needed to create the following connection:

- Make this the default connection
- This connection is firewalled
- Share with all users of this computer
- Use the same user name & password for everyone

The connection will be saved in the Network Connections folder.

Add a shortcut to this connection to my desktop

To create the connection and close this wizard, click Finish.
